

Literacy:

Create a time capsule for you when you are 21. Write a letter about your aspirations and what it is like being in year 3.

Create a play and the main character must be you when you are grown up. What will be the same? What will be different?

Dream Big week

This term we are looking at aspirations especially during our Dream Big week with the STEM fair at the end. Your child can work towards their STEM fair ideas or chose another topic to complete.

Key questions

- What do you want to be when you get older?
- What do you need to do get there?
- How will you make a difference in the world?
- What are you looking forward to achieving when you grow up?

Hand-in date: 4.7.19

Year Three Home Learning ideas.

Dream Big week

- Learn about a scientist and try and represent some of their experiments or big ideas
- What do you want to be when you grow up? Show us how you will use STEM in your life?
- What experiments have inspired you?
- How have scientists and engineers changed how we live in the world? Can you demonstrate this learning with a display or experiment?

STEM lessons ideas

- How have magnets changed the world?
- How can you change what we see with light looking at the properties of light and objects?
- How can we overcome forces such as friction and air resistance?
