RE: Free School Meals – Important Update

Dear Parents and Carers,

You are receiving this email because you are eligible for Free School Meals.

The DfE is working with **EdenRed** to provide all Free School Meal parents with supermarket vouchers. These vouchers are to help you pay to feed your child lunch for the days that the school would normally provide this.

The vouchers issued to you only normally cover lunches during term time, so they will not be issued when the school is normally on holiday. However, the DfE have informed us that they will be issuing vouchers to cover the Easter Holidays but not future holidays.

To cover the Easter Holidays, we have requested that EdenRed send you the value of two eCodes **today, Tuesday 14th April 2020**. This is to cover the two weeks of Easter Holiday.

Thereafter, we have requested to EdenRed that voucher eCodes be emailed to you every Friday, **starting Friday 17th April 2020**, to cover the meals for the following week. The value of the vouchers are £15 per child, per week.

As the eCodes can only be sent to one email address, if you do not have the code in your emails by the end of today, **please check with the other parent/carer of the child**. Please also check spam folders.

The eCodes sent out by EdenRed will expire after one month so you must redeem before this time. We cannot re-issue eCodes that have expired.

Please note you will also not receive a voucher if your child is attending Community Classroom because they are being provided lunch at school.

If you have any questions, please click this link to visit the EdenRed Voucher FAQ document:
