

Ark Priory Primary Academy Nursery

Summer Term 1

The Nursery Team: Staffing Update

Mrs. Kelly (Teacher)
Mrs. Masibbir (Teaching Assistant)
Miss. Duce (Teaching Assistant)

Curriculum:

This term we will be exploring the topic Transport and Travel. As the coronavirus restrictions are lifted, families will be taking the opportunity to go on journeys which the children will be enthusiastic to share. We will learn about fire safety and who to contact in an emergency, design and build our own vehicles on the workshop and imagine and represent our own fantastical journey on a train. There is also a strong focus on Science, Technology, Engineering and Maths (STEM) in this topic; exploring how aeroplanes fly, designing our own flotation vehicles and taking part in a mini hot air balloon experiment!

How you can help at home?

Educating a child is most successful when families and schools work together in the best interest of the child. Below are some suggestions for you to do with your child.

- Complete the weekly game on EasyPeasy and leave a comment.
- Read books to your children related to our topic.
- Look at EExAT observations together and discuss what they are doing in school.
- Continue to build their independence for example: independent travel to school - walking / scooter, dressing themselves and taking responsibility for their own belongings.
- Trying new food and discussing the school menu with them.
