

Dear Parent/ Carer,

### **SPArk Virtual Summer Programme**

We are writing to let you know about the Year 2 SPArk Virtual Summer Programme. The Virtual Summer Programme has a range of activities to keep your child learning over the summer break.

As an Ark school, we are part of a network of 38 schools. We have worked together to bring engaging and interesting resources together in one place.

The Ks1 programme includes:

- Literacy and maths activities
- Activities to do with your child across a range of areas including, physical exercise, art, cooking and science

All the challenges can be completed at any time, in any order so you and your child can choose the things that you want to focus on. The activities are a mixture of online activities and others that can be completed within the home.

### **Accessing the Virtual Summer Programme**

Pupils can access the Virtual Summer Programme by going to Ark's learning platform, SPArk, (<https://arkschools.sharepoint.com/sites/Summerprogramme/>). When they access the platform on a school Chromebook, they will automatically be logged in. To log in from another device they will need to enter their school username and password, this is the same username and password that they use to access all school computers and platforms.

I hope you can use this information to help your child make the most of the opportunities available to them over the summer.

With kind regards,

Daniela Grasso

Headteacher
